SILVERITE SPEAKING.—Robert Franklin, of Frankfort, spoke here Monday afternoon to a good-sized mixed crowd of all parties. He amused the audience with a large lot of anecdotes, read and told some dead men's tales on silver, but advanced no argument worthy of the name in support of Bryanism. Those who were satisfied with the anecdotes praised his address, but some silverites expressed a disappointment that he didn't give more whys and wherefores.

TOBACCO REPORT.—EXPRESSLY FOR THE OUTLOOK BY J. S. PHELPS & CO., PLANTERS WAREHOUSE.—LOUISVILLE, Ky., Oct. 3d, 1896.—Our market this week showed a decided improvement in the demand and in the prices of all real good, useful and fine tobaccos. The fact is being recognized that there is very little real good and fine bright and colorful sorts left, and that they are growing scarcer every week; these and also the medium red leaf, sold better, and marked a good advance. The common mixed greenish and all damaged and nondescript tobacco are in full supply, and if there is any change in such this week they are lower.

G. A. R. Song.

(Reprinted by request of James K. Jackson, Sec. of the G. A. R., U. S. V. 1.)

My dear old comrades soldiers of this native shore, I am glad to have the honor of meeting you once more.

To represent our camp life. Around our blazing fire. And hear our grand old leaders talk, Which should our hearts inspire.

These grand United States of ours, Whose people must be true, Should raise their thrilling voices, With the noble boys in blue.

For many dear old soldiers, Who lost their arms or leg Fighting for this Union, And to save the dear old flag.

In all these dear old reunions, That assemble every year, They should be held so sacred, By our boys that were the blue.

They teach us a lesson, That, with our heart and hand, We must blot out foul pollution From this our noble land.

These grand and glorious meetings Should inspire our every heart, For many dear and loved ones, Who in the great war had to part.

To go to their country's calling In the year of sixty-one— Who feared no storm or battle Nor the booming of a gun.

So now the war is ended— The nation's strife is done— We hear no more the rattling steel Nor shot from the booming gun.

May the gray and blue unitedly Shake hands and bury strife And live like loving brothers, The remainder of their life.

As we march in solid masses, With our plumes and banners gay, We feel the touching music As the band begins to play: Be loyal, brave and true, And fill our hearts with gladness To know we as a nation From war pangs are set free.

We grasp each other by the hand, And, in that fraternal grasp, We talk and tell of pleasures Since we were last united: And as we rally round the flag And gaze in solemn thought: 'Twas by the blood of thousands That precious blood was bought.

But the poor old way-worn soldiers, With weary limbs and brain, Oppressed with heavy burden Their families to maintain, Will find a solid comfort From a debt to them that's due: If the Government would pay them For defending the blue.

"If they can appeal to the law to take away some of the money you had, why can you not appeal to the law to place you back where you were?" (W. J. Bryan at Asheville, N. C.)

THIS IS WHAT WE HAD AND WHERE WE WERE. Up to 1873 we had coined, in eighty years, since the foundation of the Government, \$8,031,238 in full legal-tender standard silver dollars.

Nothing Taken Away In Silver Dollars. Up to 1873 we had coined \$143,813,598.70 in silver dollars, half dollars, quarters, dimes, etc., of which \$79,241,854.50 was of full weight.

Nothing Taken Away In the Volume of Money. In 1870, 1,630,846 depositors had \$459,474,328 in the savings banks of the United States, or \$14.26 per capita.

Shall We Go Back To Where We Were? In 1873 the purchasing power of wages, taking 1860 as a basis at 100, was 100.

Shall We Cut Off This Increase In Wages? In 1891 (the latest authoritative estimate) the purchasing power of wages had increased to 178.6.

THE REVOLUTIONISTS

In Armenia Will Wait a Month for the Powers to Take Action.

They Profess to Have No Knowledge of the Lines of the Next Upheaval, But Say It Will Be Terrible—Constantinople May Be Burned.

LONDON, Oct. 5.—The Daily News Monday publishes an interview had by its correspondent in Geneva with the British ambassador, Sir John de la Motte, who is now in the city of the Armenian refugees. They give a graphic description of the recent outbreak in Constantinople and declare that the revolutionary committee in Constantinople are waiting for perhaps a month to see whether the powers would act; if they did not the committee would again write to the embassy asking whether they would keep their promise. The committee are waiting for the powers to take action, saying that they would not hesitate to kill soldiers and policemen, but they would not injure peaceable people. The government, they significantly said, might not have a scheme for the burning of Constantinople that it might have been more easily effected than the capture of the Ottoman bank. The city was built of wood and could be quickly destroyed.

GEN. WEYLER'S OPERATIONS

In the West of Cuba Proves a Failure—His Forces Meet With Three Defeats—The Herald from Havana, Cuba, October 5, via Key West, Fla., says:

Capt. Gen. Weyler's initial operations inaugurating the campaign in the extreme west, intended to trap Maceo, and defeat and drive him east have proved a failure.

Gen. Meluzia, who as military governor of Pinar del Rio, was delegated by the captain-general to start the ball, has been defeated in three successive engagements with Maceo in the mountains of Pinar del Rio, where the combined columns of Gen. Francis de Arce, and Gen. Meluzia, and the positions. Those columns suffered tremendously and were compelled to retreat to the coast.

The news fell like a bomb shell in the palace. The captain-general will not even permit the Havana representatives of the Madrid press to wire the facts, and he gave strict orders to the press censor and post office officials not to even allow the publication of the failure of his plans from getting out.

The editor of El Diario del Ejercito, the army organ, whose paper is seldom, if ever, censured, was assigned for details, was called to the palace by the captain-general and severely reprimanded.

Friday evening near Arkadia, Mo., five miles north of St. Joseph, a woman named Mrs. Bomley, who was a strong woman, and beat her brains out. All the rooms in which the struggle took place are covered with blood. No cause can be assigned for the terrible crime other than that the tramp found Mrs. Bomley alone and attempted to assault her. Posses are securing the country and if the man is caught he will be lynched.

BRITISH POLICE

Laying and Collecting Tributes Upon American Citizens in the Yukon Country.

WASHINGTON, Oct. 4.—G. A. Carpenter, a well known journalist and writer, returned from the Yukon district on the steamer Alkali. He states that British military police, under the command of Superintendent Constable, are laying flagrant tributes upon American citizens and aggressively encroaching upon United States territory on the Yukon river. According to Carpenter's story the British boundary line has been extended 15 miles southward upon United States soil, and her majesty's bluecoats are collecting a head tax or license fee of \$15 per annum from all foreigners within this territory. High duties are levied upon all American imports to the Yukon country and dissatisfaction prevails.

A TIDAL WAVE

Almost Wipes Cedar Keys, Fla., From the Face of the Earth.

The Loss of Life and Property Is Enormous—Many Sponging Vessels, With Their Crews, Were Swept to the Bottom—The Storm in Georgia.

ATLANTA, Ga., Oct. 1.—A special from Jacksonville, Fla., to the constitution says:

The West Indian hurricane which entered Florida at Cedar Keys Tuesday morning and swept through the southern part in a northerly direction, left death and destruction in its path.

Owing to the prostration of telegraph wires and the delay of trains, due to washouts, only meager reports have been received, and yet, judging from those reports, they show that over 20 towns and villages have been wrecked and that 40 or 50 persons have been killed, while probably three or four more received wounds in one or less cases.

About 4 o'clock in the morning the hurricane, which had been churning the gulf, left the water and swooped down upon Cedar keys, where 1,500 inhabitants, about one hundred miles southeast of Jacksonville.

JACKSONVILLE, Fla., Oct. 2.—Cedar Keys is a place of desolation and death. It was a thriving town of 1,500 inhabitants, Thursday night of the people are corpses, scores of others are injured and there are but few houses left standing. Twenty corpses have been recovered, and many others recovered but few have been identified, so mutilated were they by falling timber.

Many of the corpses were dug out of the mud in which they were buried by the mighty tidal wave that swept over the town Tuesday morning.

The storm struck this place about 12 o'clock Tuesday morning and continued for several hours. Though warning had been given, nothing indicated a blow of unusual severity.

At 7 o'clock an immense tidal wave came in from the south, carrying destruction with it. Boats, wharves and small houses were hurled upon the shore, and breaking into fragments, scattered the streets with wreckage.

downed by the sinking of the steam barge Sumatra at Milwaukee. Much damage was done to shipping in Milwaukee, Grand Haven, Chicago and other harbors, and masters of such steamers as were out in the lakes during the night report one of the roughest passages they have ever experienced.

Owing to the lateness of the season and threatening conditions which prevailed for 24 hours, before the storm broke, most of the sailing fleet was tied up in different ports—Chicago harbor especially being crowded.

LANCASTER, Pa., Sept. 20.—The bridge over the Susquehanna river at Lancaster, which was nearly a mile in length was almost completely wrecked by the heavy wind storm early Wednesday morning. The bridge was used by the Frederick division of the Pennsylvania Railroad and was also used as a public wagon road. The bridge connected Lancaster with Wrightsville, Pa. Only two iron spans of the bridge remain. The bridge was rebuilt in 1903 at a cost of \$120,000. The piers are not injured.

It is believed several men were on the bridge when it was swept away. The cause of the disaster is not known, but it is believed that the bridge was overloaded.

CHRONIC CATARRH.

Sometimes Accompanied by Chills, Choking Sensation and Weakness of Limbs.

Mr. James Conner Tells of His Experience and After a Long Siege Succumbs in Finding a Cure.

From the Herald, Olean, N. Y.

A member of the Herald staff told a sad story which was pleasantly spent among the good people of the southeastern part of the country. The eight-mile drive from Olean to the town of Olean, N. Y., is full of interest and the country abounds in picturesque scenery. This section is noted chiefly for its running streams, but roads, numerous villages and pretty girls, with here and there a church or school house, the great civilization and christianity of the ages.

One of the most sturdy, honest and upright citizens of this community is James Conner, a former Justice of the Peace in the county of Olean, N. Y. He is a school teacher, and has a family of three children, lives alone at a small farm near Olean, N. Y., and it is the newspaper man's good fortune to enjoy their generous hospitality. Hearing that Mr. Conner was a sufferer from chronic catarrh, soreness of throat, weakness of limbs and a touch of rheumatism, the reporter called on him and took some medicines on his own account, but all to no purpose. It was for the use of Pink Pills for Pale People, he heard that Mr. Conner was a sufferer from chronic catarrh, soreness of throat, weakness of limbs and a touch of rheumatism, the reporter called on him and took some medicines on his own account, but all to no purpose. In Henry county 589 Democrats by actual count will vote against Bryan.

MONTGOMERY county is said to have 500 Democrats who will not support Bryan.

Old Virginia is preparing to swat the Boy in November. Same here in Old Kentucky.

REALLY and truly, the Bryan cause seems to be in a most wobbly way throughout the nation.

THE way wheat is going up and silver isn't is a caution to believers in the "Coin" Harvey theory.

THE Indiana Populists are alleged to have been sold out by their fustian committee, but the goods refuse to be delivered.

Is parts of India recently there were riots on account of the high price of wheat. So cheap wheat is not an unmixed evil.

DENNY is out of the race for Congress in the Lexington district, and Breckinridge will represent it in the next Congress.

"HURRAH for Bryan and Eleven-thirtieths of Sewall and Two-thirtieths of Watson!" is the correct Popocratic yell in Kentucky.

ANTIE SEWALL admits taking gold contracts, but says he is custom-bound to do so. After November the people will become custom-bound to speak of him as one of the "false-bills."

MAJOR A. T. WOOD, of Mt. Sterling, is quoted in a newspaper as saying that he would give his house and lot to any man that could find five free-silver Republicans in Montgomery county.

PALMER and Buckner are steadily gaining adherents from the Bryan side throughout the nation. Cool reason teaches Democrats that they are the true Democrats and representatives of true Democracy.

WHEAT went above 70 cents per bushel last week. It is claimed that wheat in the prairie country of the West and Northwest costs only 35 cents per bushel to grow. 70 cents is double and a good profit.

W. F. PORTER was chosen by the New York Popocratic managers to succeed Thacher, resigned, as gubernatorial nominee. Porter will get the razzle-dazzle jinky-dink to an extent that will simply be annihilating.

THE Silver trust and politicians, who by the administration of the slow poison of their selfish interests have brought the nation to a sickbed of severe suffering in order to have the silverite physicians called in to prescribe silverite remedies, are not the ones for the patient to trust now. Stop the giving of the silver poison and the patient will get well and strong again; otherwise it is bound to get worse and may actually die.

There is one thing certain: Only one person can be elected to each of the county offices. Now, hands up! How many have been led to believe they can be elected to each county office if they will only fight hard for Bryan?

SEWALL is alleged to have given \$20,000 to the Popocratic campaign fund lately and made the managers happy. If true that fastens Sewall as the main tail of the Bryan kite, and Tamm Watson is a mere fluttering superfluity.

The log-cabin ticket comes first on the official ballots, then the rooster, the plow and hammer next, the "dry" next, and then at the last comes the Thomas Jefferson head ticket. But the last shall be first some of these days.

The New York Journal, owned and edited by one of the California Hearsts, is the only prominent daily in the East whooping it up for Bryan. The Hearst estate includes \$35,000,000 in silver-mining property, which accounts for some things.

RETURN KOLB and Bowman, the Alabama Populists leaders, have deserted Watson outright and declared for Bryan and Sewall. That was an unkind cut indeed. The sincere Populists are doomed to betrayal by their most conspicuous leaders.

BRYAN has a good berth waiting for him after his defeat in November. Hearst, of the New York Journal, will make him the Washington correspondent for his two papers, so it is said, at a salary of \$10,000 per year in honest, 100-cent dollars.

GEORGIA held her State election Wednesday, and it is presumed went overwhelmingly Democratic. They stick together down there on State issues, but in November the defection from Popocracy will be decided and will cut down the pluralities of former years.

Up to the latter part of last week it was estimated that the advance in the price of farm products the previous three weeks represented a profit of \$205,000,000 to the farmers of the United States. \$52,000,000 was on the wheat crop alone. How times would gladden the farmers' hearts if it wasn't for the threat of Bryanism!

ONLY 1,000 names were needed to the petition to have the Palmer and Buckner ticket printed on the Kentucky ballots, but over 7,000 names were secured in Jefferson and other near-by counties, the distant counties not being drawn upon for petitioners. The old heroes are going to get a flattering vote in their native State.

THE 7th district Republican Committee met and decided not to hold a Congressional convention. The Committee stood 7 to 1 against nominating anyone. Judge Geo. Denny was anxious to make the race for the nomination. It is evident that the overwhelming sentiment of the Republicans is to help elect Breckinridge over the Popocratic nominee.

"We favor free silver, but we favor free government more, and while the success of the party upon the Chicago platform might bring silver monometallism it would afford no hope of bimetalism in this country."—Extract from the late Colorado Republican State platform.

Some well-meaning people among the Bryanites don't seem to realize what hideous spectres they are helping to conjure up and that will not down hereafter.

SENATOR TELLER, the Popocratic Republican silverite leader, is quoted as expressing the opinion that legalized Bryanism will not make good times immediately, but may be expected to bring good times inside of twenty years. Inside of twenty years the most of the present distressed people of middle-age will have passed superfluously from the stage of life.

Sound money men the country over haven't a doubt that silverism abandoned will bring good times in a very short time.

In looking over THE OUTLOOK of last week's issue we find where we stated that "greenbacks were the only money in circulation before 1873." Technically that isn't correct, but we used the word "greenbacks" in its colloquial sense to include paper currency generally, knowing, of course, that national bank notes and greenbacks were in concurrent circulation. Of course, also, we meant "before 1873" to refer to the period between 1873 and the issuance of greenbacks and national bank notes.

In a late letter Secretary Carlisle states these facts:—
From Jan. 1, 1896, to Sept. 30th, 1896, \$13,912,512 in standard silver dollars were coined at the U. S. mints.

Since November 1, 1893, when the silver-purchasing clause of the Sherman law was repealed, \$17,869,491 in standard silver dollars have been coined in the U. S. mints. That is twice as many as were coined from 1792 to 1878.

During Sept., 1896, \$2,700,000 in standard silver dollars were coined. About the same will be coined this month.

The seigniorage, or gain to the Government, since Nov. 1, 1893, on silver coinage is \$5,700,000.

The foregoing coinage was done to redeem the Treasury notes issued in purchasing the silver bullion under the Sherman law. Since Aug. 1, 1893, \$31,126,722 in these Treasury notes have been redeemed, the silver dollars taking their places in the circulation.

The Government report of Controller Eckels shows there is in evidence on July 1, 1896, \$404,141,470 in gold in certain number of the banks and the Treasury. The amount of gold held privately is estimated to be over \$200,000,000, besides about \$15,000,000 was recently imported. There is no scarcity of gold in this country, and all that is necessary to make it readily exchangeable for silver or paper currency is confidence that the proposed new silver standard will not be enacted into law.

The State Popocratic Committee at Blackburn's request asks Carlisle to divide time with Blackburn when he makes his four speeches in Kentucky; that, too, after Blackburn said at Owenton that the inmates of hell were as much entitled to be called Christians as those who took part in the Indianapolis convention were to be called Democrats, and is held by those claiming to know to be at least partially responsible for the crowd howling down John M. Atherton the same day. Carlisle declined to divide time.

The 7th Ky. (Lexington) Popocratic Congressional convention met at Frankfort last week, and the vote was so near evenly divided between Bronston, Settle and Carroll that the convention became deadlocked. It adjourned for good Friday, and a primary election was ordered. It was learned too late that the law requires 40 days' notice for a primary, and a legal primary can not now be held. The balloting began with 614 for Bronston, 56 for Settle, and 171 for Carroll, and didn't vary much. The prospect seems hopeless for the Popocrats there now.

WASHINGTON, D. C., Sep. 30, 1896.—Mr. Wm. C. Smith, Louisville, Ky.—My Dear Sir: Your favor of the 28th is just received. There is a majority in the United States Senate in favor of the free and unlimited coinage of silver at the rate of 16 to 1, and eight or ten of the free-silver Senators have announced their purpose to introduce any tariff bill in Congress unless a free coinage provision shall be inserted in it. They were sufficiently strong at the last session to prevent the passage of a tariff bill, and if they adhere to their purpose as announced they can also prevent it hereafter. Very truly yours, J. G. CARLISLE.

A GERMAN silverite of Texas evidently translated Prince Bismarck's letter in German and made it read more strongly for silver than Bismarck meant. But can the "Man of Blood and Iron," who was considered to be a tyrant by many of his own people, teach American Democrats how to run their Government when they are so prejudiced against the opinions of free-dom-loving statesmen of free Merry Old England? They want a foreigner's advice who can't get it from Wm. E. Gladstone, the greatest of English-speaking men, who admires America more than nearly any foreigner and understands us, and our Government better than nearly any of our own people do?

CARLISLE is coming to Kentucky about Oct. 15th to make five speeches—at Louisville, Owensboro or Henderson section, in Bowling Green section, at Lexington, and in Eastern Ky., probably. Bourke Cochran will speak at Louisville Oct. 22d.

Col. John R. Fellows will speak probably at Mt. Sterling and at Ashland.

Besides the foregoing the State is being thoroughly stomped by Senator Wm. Lindsay, R. T. Tyler, Boyd Winchester, E. J. McDermott, Alex P. Humphrey, J. Quincy Ward, Thomas W. Bullitt, T. P. Hill, Basil W. Duke, John M. Atherton and Helm Bruce, all Democratic big guns for Palmer and Buckner.

HERE is a truth from Talmage's sermon of Sunday a week ago that if constantly kept handy for menial reference will prevent many a blasted hope:—

"There are young men and older men who hope through the right settlement of this acrid controversy between silver and gold, or the bimetallic quarrel, that it will become easy to make a living. That time will never come. It never has been easy to make a living. The men who have it very easy now went through hardships and self-denials to which most young men never consent. Unless they got it by inheritance, you can not mention 20 men who have come to honorable fortune that did not fight their way inch by inch, and against fearful odds that again and again almost destroyed them."

EN, KNOB LICK?

BARDSTOWN, KY., Oct. 4.—To all Populists in Kentucky who are opposed to having their votes traded off to the Democrats by our Populist Committee, greeting:

Brothers, if we are Populists in earnest we can only support the principles of our party and candidates for public office who honestly represent them. We can not afford to be stultified by abandoning the principles we hold dear, whether we are bidden to do so by the dicker of a committee or any other authority.

Every Populist in the State of Kentucky who does not wish to see our party die, who does not wish to see the cause for which we have struggled so hard in the past perished and with it die all hopes of reform in the breasts of our people for years to come, is most earnestly urged to send me his name and address at once.

Every Populist who loves principles more than those scheming politicians—and that embraces nine-tenths of the rank and file—if he wants a straight-out middle-of-the-road electoral ticket to vote for, will please send me his name

and address without losing a moment's time. If we put a straight electoral ticket in the field we must act quickly and decisively.

I appeal to every middle-of-the-road Populist in the State, who is resolved that no man or set of men can traffic with his vote, to assist me in this work. I hope the following brothers will go to work at once and help me in this work: John G. Blair, of Nicholas; W. B. Bridgford, of Franklin; Frank Redwood, of David O'Connell, Ben J. Wibbels, of Louisville; J. I. Green, of Oscar Hughes and Charles Durbin, of Grayson; Ben S. South, of Hardin; Ben Currant, James O'Bryan and A. S. Johnson, of Meade, and every other true Populist whose eye shall see this call. I have already received a number of responses. If you are with me, answer quickly. I mean business. With me it's still "No Watson, no Bryan," and will be on November 3. Friendly papers please copy. And all persons in sympathy with this movement will please put this call in the hands of every Populist friend or neighbor he can reach. If we act promptly, we can yet meet, name our electors and get them on the official ballot under the plow and hammer by petition. Fraternally yours, JOSEPH H. ARNOLD.
